Hi thomas -

Congratulations - you're on the road to your goal with your first signer!

Want to know the **two biggest mistakes to having a successful petition? No image and a long complicated explanation.**

So how does your petition stack-up? Click here to check and edit it now: https://secure.avaaz.org/en/petition/Blacklivesmatter_and_occupy_wallstreet_investigate_my_claims/edit/

We've included the text of your petition below so you can read it easily and check if you can quickly fix some easy-to-fix common mistakes:

- **Resist the temptation to give a long introduction** instead of cutting straight to the problem (it's hard!).
- Explain the time-element -- **why now? What's the urgency?**
- **When in doubt, cut it out** -- if you can't tell whether something's essential to include, it probably isn't.

Blacklivesmatter and occupy wallstreet: investigate my claims

I have been targeted by the f.b.i cointelpro program and the military for my dissenting art and religious views.

I have been framed, falsely arrested and jail 4 times.

I have gone on four hunger strikes.

I was thrown in the hole while in jail in Va, and finally forced to take a needle shot after a 2 week hunger strike. This after being told the sho was voluntary.

I was harassed by the police and government street agents out of the State of Va.

I went to Atlanta Georgia.

I had the police and street agents wage a vicious campaign against me. My life was threatened nearly every day. I was followed and harassed 24/7.

I went to Birmingham Alabama

.Here, arrested and jailed 3 times.

The first time on a fake 3rd degree trespassing and drug paraphernalia charge.

I stood before the court four times because the cop never showed up and they kept continuing the case.

Finally I had a release form thrust at me.

I signed not to sue, for a dollar and a promise that they leave me alone because they were making no effort to hide I was involved in a mock trial.

I never got the dollar or an end to the harassment.

I filed a lawsuit pro se in federal court under statute 83 because not only was I falsely arrested, the UAB police took my computer from the city jail and kept it the entire 3 weeks I was in jail. They gave it back to me broken.

The judge blocked my suit even though I filed under the correct statute.

The harassment continued unabated.

On Feb 7th, I was arrested again.

I was just walking down the street. The cop slammed me to the ground and charged me with "obstructing government operations."

Both mine and the cop's pictures were taken by a supervisor at the hospital.

I was taken to jail.

I was beaten by the 4 jailers, kneed in the face so hard my front teeth were hair-lined cracked. Punched in the kidneys. I asked to be taken to a hospital and was ignored. When I was released the Nextbook tablet I had was returned to me broken.

On Feb, 11, I went before a judge.

I pleaded not guilty.

My court date was put off for 4 months until May 27th.

After spending 4 months thinking about nothing else, for some reason on the date of the trial, I forgot the court date. I arrived at the courthouse two hours late. The cop didn't show up at all. They wouldn't give me a reschedule, so I turned myself into the police.

I was jailed for 7 days.

On May 3 I went before a judge. I was told the cop was on military duty.

My next court date was put at June 27th.

I arrived and was not even given a trial.

Lawyer tried to talk me into taking a plea to end the case on the 7 days I served for being late for court.

Again, I refuse to plead guilty.

Again, no cop in court.

The case was continued for 3 more months until Sept. 26th.

Since this is all orchestrated by the government, I ask the two grass root organizations to look into my situation.

I can't get a lawyer; am blocked from going forward pro se, and no organization(I've tried dozens over the past 9 years) will touch it.

I will like to be able to defend myself in a court of law.

I will like to have the court prevent the Birmingham police, and the city jail from destroying the video evidence of what happened on Feb 7, on 5th ave, and in that jail.

I will like to bring to the court all the false arrests, malicious prosecutions, and harassment against me by the city, states and Federal government.

I have never committed a crime.

I will like to be able to prove it.

I will like the government to try and punish me in a court of law, rather than on the streets.
