Subject: official complaint

My name is Thomas Couram. I am a patron of the various libraries around the Lucas County area.

I am a quiet law abiding citizen who only come to the Library in peace to do things I'm trying to do. I make no noise or cause any trouble, yet I am relentlessly harassed because the government got me on some list, while denying me any Constitution right to the courts.

I come into the library and I have security guards and police, as well as library workers constantly harassing me.

I don't expect anything to be done about this complaint because this goes on from State to State.

I am writing this solely for the record.
